

EARTHMAX SR 31 - Ficha técnica

Description

EARTHMAX SR 31 es un neumático All Steel radial particularmente proyectado para dúmpers rígidos y palas cargadoras. Los cinturones de acero multiestrato aseguran una extraordinaria fuerza y estabilidad, mientras que el dibujo no-direccional rígido de bloques garantiza una excelente tracción y maniobrabilidad, incluso sobre un terreno de barro. Además del extraordinario confort en la conducción, EARTHMAX SR 31 se caracteriza también por una mezcla especial de la banda de rodadura, particularmente resistente a los cortes y al calor. La estructura radial de la carcasa ofrece además una baja resistencia al rodamiento, con un consecuente y significativo ahorro de carburante.
