

## EARTHMAX SR 46 - Datenblatt

### Description

Earthmax SR 46 für starre Muldenkipper ist die innovative Antwort für Anwendungen in felsiger, rauer und schroffer Umgebung im Bergbau. Dieser Reifen wurde speziell zum Transport schwerer Lasten entwickelt und bietet hervorragende Schnitt- und Stichfestigkeit sowie einen verlängerten Produktlebenszyklus. Die All-Steel-Karkasse mit Stahlbändern verleiht ausgezeichneten Schutz gegenüber Stößen, Belastung und Stichen. Dies trägt zur Maximierung der Betriebsstunden und erhöhter Produktivität bei. Earthmax SR 46 zeichnet sich durch ein spezielles Reifenprofil mit Blockstollen und umlaufender Längsrille aus. Daraus ergibt sich hervorragendes Kurvenverhalten bei minimaler Beanspruchung der Profilaußenseite.
