

EARTHMAX SR 49 M - Datenblatt

Description

EARTHMAX SR 49 M ist ein All Steel Radialreifen mit einem speziellen, nicht-richtungsgebundenem Muster, der speziell für Fahrlader (LHD), flache Dumper (LPDT) sowie Radlader und Planierer entwickelt wurde, die unter schweren Bedingungen in felsiger Umgebung vor allem im Untertagebau eingesetzt werden. EARTHMAX SR 49 M ist ideal für Arbeiten, die hervorragende Traktion und Stabilität erfordern. Das tiefe L-4 Laufflächenprofil und die speziell formulierte Gummimischung UMS (underground mine service) verleihen eine größere Verschleißfestigkeit neben ausgezeichneter Widerstandsfähigkeit gegenüber Schnitten an Felsen und Stichen.
