# **HUL distributors consider** stopping stock purchases

SHARLEEN D'SOUZA Mumbai, 29 December

istributors are considering halting purchases of Hindustan Unilever's (HUL's) goods because they are unhappy with the new margin structure the company has implemented, according to a statement by the distributors' federation All India Consumer Products Distributors' Federation (AICPDF).

This statement comes after HUL recently changed its fixed and variable margins in 100 towns for its distributors.

"Hindustan Unilever's recent decision to reduce distributor margins amid challenging times and sluggish volume growth has raised concerns. AICPDF strongly opposes this move," the federation said in its statement.

The statement also said, "This decision, coupled with the offer of increased variable margins, suggests a shift in management strategy that may jeopardise the entire distribution network. Distributors fear being pressurised and blackmailed into compro-

# **TUG OF WAR**

Statement from the federation comes after HUL recently changed its fixed and variable margins in 100 towns

Also says distributors fear being pressurised and blackmailed into compromising their rightful margins

Firm has cut the fixed margin to its distributors from 3.9 per cent to 3.3 per cent

mising their rightful margins." An email sent to HUL did not elicit any response till the time the story went to print.

HUL has cut the fixed margin from 3.9 per cent to 3.3 per cent (or by 60 basis points) and increased the variable margins across its different sets of distributors in the range of 1-1.3 per cent (100-130 basis points).

This change has been made across categories the company operates in.

FMCG companies typically give fixed margins of 4–6 per cent HUL has increased the variable margin from 0.7 per cent to 2 per cent

FMCG companies typically give fixed margins of 4-6 per cent, while variable margins depend on milestones or performance parameters.

In the case of general trade distributors, HUL has increased the variable margin from 0.7 per cent to 2 per cent. For non-general trade distributors, the performance-based margin has increased from 0.4 per cent to 1.7 per cent. The company has increased the variable margin for another set of dis-

tributors which fall under the category of non-general trade distributors from 1.1 per cent to 2.1 per cent.

The FMCG major ran a pilot across four to five towns from October 20 this year, and then implemented it in 100 a month later on November 20. This cluster of towns has been called "Bharat ke Shehar".

The variable margin is divided into three main categories — sales. demand capture, and demand fulfilment.

Under the variable structure some criteria distributors must meet to get the incentives include delivering 60 per cent of the orders placed by wholesalers/retailers within 24 hours and having retailer/wholesaler place orders via the company's Shikhar app, while also achieving the targets for secondary sales and the extent to which HUL's assortment of products are sold, among others.

According to a source, the company plans to implement the new margin structure across all its distributors in the country by the start of next financial year.

India now a nation of investors: Uday Kotak

# PRESS TRUST OF INDIA

New Delhi, 29 December

India has transformed from being a nation of savers to investors with more and more people parking their surplus fund in mutual fund and equity market, founder and former MD of Kotak Mahindra Bank Uday Kotak said on Friday.

In the early 80s, the Indian saver had low confidence in financial assets versus gold and land. Slowly the saver moved some part to bank deposits, UTI and LIC, Kotak said in a post on X.

Even in the 90s, he said, investing in equities was considered 'speculative'.

"Hence, companies looking for capital went to the foreign institutional investor (FII). FIIs saw potential and bought into companies while the Indian saver stayed away," he said.

Companies raised capital through the less known Luxembourg stock exchange, he said, adding, India's capital market was being exported. "Some of us highlighted this

phenomenon to Sebi. That began the private placement market (QIP) in early 2000s. Hence FIIs could also buy on Indian markets. The Indian saver's interest in markets improved after the global financial crisis," he said.

That saver is now savouring the joys of investing as mutual fund platforms, cash equities and derivatives markets, insurance funds, global private equity in India, other platforms like AIFs. lower tax regime for equity, have all converted from a saver to an investor, he said.

Thus, India has transformed from being a nation of savers to investors and the tussle between the saver/borrower and issuer/investor is underway.

Sharing his thoughts on story, sustaining growth Kotak said as savers become investors the banking sector faces challenges on its deposits and cost of funds.

Disclosure: Entities controlled by the Kotak family have a significant holding in Business Standard Pvt Ltd

PRESS TRUST OF INDIA New Delhi, 29 December

Terming the menace of deepfakes and misinformation as "a very problematic issue" for the Indian democracy, Union Minister Rajeev Chandrasekhar (pictured) has said the government will "keep an eye" on the remedial measures taken by the platforms on the advisories.

The minister also promised that inaction on their part may prompt amendment to the IT Rules that will be more "prescriptive".

In an interview with PTI. Chandrasekhar, who is Minister of State for IT and Electronics, said that for a large, connected nation like India, deepfake represents "certainly a very, very problematic issue to the conducting of safe and free and air elections"

The government has been flagging its worries to social media and other digital platforms about misinformation and deepfakes, and had alerted them about the problems it could create in a democracy like India.

'We will keep an eye on the intermediaries for the 7-15 days after they come back from vacations...and if they still have not made a move, then we will basically amend the IT rules and notify amended IT rules to be as prescriptive as the advisories are," the minister said.
