

## ***EARTHMAX SR 47 - Ficha técnica***

*Description*

EARTHMAX SR 47 (E-4) es un neumático radial *All Steel* particularmente proyectado para los dúmpers rígidos que operan en condiciones en las que se requiere la máxima resistencia contra los cortes y las perforaciones en ambientes rocosos. El dibujo único de la banda de rodadura con una profundidad de E-4 reduce el desgaste, asegurando un ciclo de vida más largo al neumático incluso en los desplazamientos largos. Esto se traduce en una reducción de los tiempos de parada y en un incremento de la productividad. Está disponible con mezcla estándar o resistente a los cortes.
