

LG 306 - Especificaciones técnicas

Description

LG 306 es un neumático para el césped y la jardinería, idóneo para segadoras. En algunas medidas, LG 306 también es adecuado para los minitractores. El específico dibujo de la banda de rodadura hace que este neumático sea delicado en el terreno, facilitando al mismo tiempo la manipulación y las maniobras. LG 306 está disponible en una versión "aramid-belted", con cinturones de aramida, para usuarios que requieren una mayor resistencia a la perforación.
