

## POWER TRAX HD SMOOTH - Ficha técnica

### Description

POWER TRAX HD SMOOTH es un neumático de telas cruzadas específicamente desarrollado para utilizarlo en las operaciones portuarias y en las minas subterráneas. La especial protección del flanco, así como la sólida banda de rodadura evitan daños causados por cortes y perforaciones, muy comunes en estos ambientes tan difíciles. En el caso de que haya que desplazar cargas pesadas en condiciones duras, Power Trax HD Smooth es el neumático ideal para todas las exigencias.

### UM

International Standard

### Construction

BIAS

### Machinery

Industrial: Manipulador de contenedores • Carretilla elevadora

OTR: Vehículos para minería subterránea
