

## TECHNICAL SPECIFICATION

Applications                      Log Skidder  
 Description                      FS 216 has a robust log design with optimum angle and wider width to enhance traction performance for loggers and skidders. It provides excellent cut and chip resistance under the most critical operating conditions and ensures maximum protection against possible damages at any time.

**Pattern Name              FS 216**

Version                      ARAMID BELTED  
 US Code                      94026685  
 Type                          TT  
 Tire Size                      23.1 - 26  
 PR                              16

Dimensions (U/M US Standard)  
 Section Width (in)              23.1  
 Overall Diameter (in)            63.6  
 Static Loaded Radius (in)       28.6  
 Rolling Circumference (in)    188.2  
 Rim Rec                          DW 20 A ; DW 20 B  
 ECE                              E11-106R-003660

**LOAD CAPACITY TABLE (lbs)**

mph / psi	40	35
5	13900	-
20	-	9900

\* Tolerances: Overall Diameter ± 2% | Section Width ± 2% | Rolling Circumference ± 2.5%
