

## TECHNICAL SPECIFICATION

Applications                      Log Skidder  
 Description                      FS 216 has a robust log design with optimum angle and wider width to enhance traction performance for loggers and skidders. It provides excellent cut and chip resistance under the most critical operating conditions and ensures maximum protection against possible damages at any time.

**Pattern Name**                      **FS 216**  
 Version                                STEEL BELTED  
 US Code                                94028122  
 Type                                      TT  
 Tire Size                                18.4 - 34  
 PR                                         10

Dimensions (U/M US Standard)  
 Section Width (in)                      18.4  
 Overall Diameter (in)                    66.1  
 Static Loaded Radius (in)                30.2  
 Rolling Circumference (in)               198.5  
 Rim Rec                                    DW 16 A  
 ECE                                         E11-106R-004560

**LOAD CAPACITY TABLE (lbs)**

mph / psi	30	25
5	8950	-
20	-	6400

\* Tolerances: Overall Diameter ± 2% | Section Width ± 2% | Rolling Circumference ± 2.5%
