

**TECHNICAL SPECIFICATION**

Applications                      Log Skidder  
 Description                      FS 216 has a robust log design with optimum angle and wider width to enhance traction performance for loggers and skidders. It provides excellent cut and chip resistance under the most critical operating conditions and ensures maximum protection against possible damages at any time.

**Pattern Name                      FS 216**  
 Version                              STEEL BELTED  
 US Code                              94057856  
 Type                                      TL  
 Tire Size                              28L - 26  
 PR    26

Dimensions (U/M US Standard)  
 Section Width (in)                      28.3  
 Overall Diameter (in)                      65.4  
 Static Loaded Radius (in)                      29.2  
 Rolling Circumference (in)                      193.4  
 Rim Rec                                      DW 25 A ; DW 25 B

**LOAD CAPACITY TABLE (lbs)**

mph / psi	58	49
5	20280	-
20	-	14440

\* Tolerances: Overall Diameter ± 2% | Section Width ± 2% | Rolling Circumference ± 2.5%
