

TECHNICAL SPECIFICATION

Applications	Loader
Description	Earthmax SR 43 (L-4) is an All Steel radial tire specially designed for wheel loaders operating in severe rocky conditions, primarily underground mining. The tire delivers excellent performance in load and carry operations in open pit mines, quarries and scrap yards. Its unique tread design offers superior traction and stability. The reinforced sidewall minimizes rock cuts and damages caused by scrubbing, whereas the self-cleaning tread pattern provides excellent protection from stone retention and drilling. Thanks to its All Steel casing, Earthmax SR 43 (L-4) provides excellent durability, resistance to snags and punctures as well as a long service life.

Pattern Name	EARTHMAX SR 43
Version	CUT RESISTANT COMPOUND
US Code	94063390
Type	TL
Tire Size	29.5 R 25

Dimensions (U/M US Standard)

Overall Diameter (in)	73.8
Static Loaded Radius (in)	33.3
Rolling Circumference (in)	222.2
Rim Rec	25.00/3.5
Star Rating	***
