

EARTHMAX SR 47 - Fiche de données

Description

EARTHMAX SR 47 (E-4) est un pneu radial **All Steel** (Tout Acier) particulièrement conçu pour les tombereaux rigides qui opèrent dans des conditions nécessitant la plus grande résistance aux coupures et perforations dans les milieux rocheux. Le dessin unique de la bande de roulement d'une profondeur E-4 réduit l'usure en assurant une vie plus longue du pneu même sur de longs parcours. Ceci se traduit par des temps d'arrêt machine réduits, ce qui augmente la productivité. Disponible avec mélange standard ou résistant aux coupures.
