

FL 639 - Spécifications techniques

Description

FL 639 est un pneu radial Flotation et de transport pour une utilisation essentiellement aux champs qui convient tout particulièrement pour les applications avec épandeurs. L'empreinte large garantit un moindre compactage du sol, ce qui permet une plus grande productivité des cultures. La bande de roulement renforcée et la protection du flanc contribuent à en allonger le cycle de vie. FL 639 assure une traction excellente même que des propriétés exceptionnelles d'autonettoyage.
