

## MINEFORCE - Fiche de données

### Description

MINEFORCE est un pneu à carcasse radiale spécialement conçu pour les camions de transport dans les exploitations minières et les carrières. Le pneu haute performance pour camion de transport MINEFORCE est la réponse innovante de BKT aux environnements miniers rocheux, abrasifs et difficiles. Il est doté d'une bande de roulement unique avec des composés spéciaux spécialement développés pour le travail dans des environnements miniers durs, rocheux et difficiles. Sa large surface de contact avec des pattes rigides assure une usure uniforme de la bande de roulement et un cycle de vie plus long.
