

EARTHMAX SR 31 - Scheda tecnica

Description

EARTHMAX SR 31 è uno pneumatico radiale All Steel progettato per dumper rigidi e pale gommate. Le cinture in acciaio multistrato assicurano forza e stabilità straordinarie, mentre il disegno non-direzionale rigido a blocchi garantisce trazione e manovrabilità eccellenti, anche su fondo fangoso. Oltre allo straordinario comfort di guida, EARTHMAX SR 31 si distingue anche per una miscela speciale del battistrada, particolarmente resistente ai tagli e al calore. La struttura radiale della carcassa offre inoltre una bassa resistenza al rotolamento con conseguenti risparmi significativi di carburante.
