

RT 851 - Scheda tecnica

Description

RT 851 è uno pneumatico R-1 particolarmente progettato per trattori nelle applicazioni con manti erbosi. Lo speciale disegno arrotondato dei ramponi è stato sviluppato per ridurre qualsiasi danno al manto erboso e alle piante in crescita, contenendo la compattazione del suolo. La robusta carcassa in nylon con le cinture forti in poliestere garantiscono trazione straordinaria oltre a maggiore capacità di carico.
