

EARTHMAX SR 34 - Tekniska specifikationer

Description

EARTHMAX SR 34 är ett radaldäck helt i stål speciellt utformat för dumper som används för bland annat gruvdrift, stenbrott, skogsavverkning och transport. Det oriktade däckmönster ger utmärkt dragförmåga och stabilitet i alla typer av terräng. EARTHMAX SR 34 är idealiskt för hantering av tunga laster. Den robusta stålradialstommen ger utmärkt motståndskraft mot slitage, revor och punkteringar. Den förstärkta vulsten och specifika skulderdesign bidrar till däckets långa livscykel, även under de mest krävande arbetsförhållandena.
