

EARTHMAX SR 412 - Tekniska specifikationer

Description

EARTHMAX SR 412 (E-4/L-4) är ett radialdäck helt i stål som konstruerats och designats för ramstyrda dumprar, lastare och schaktmaskiner. Dess starka stålradialstomme och däckbälten gör att EARTHMAX SR 412 klarar högre belastningar med bibehållen utmärkt stabilitet och motverkar dessutom skador från snitt, ihakningar och punkteringar.

Det garanterar utmärkt grepp och exceptionell dragförmåga mot värme tack vare sitt unika E-4-slitbanemönster.

EARTHMAX SR 412 har utvecklats med en kvadratisk axel som maximerar markkontakten för utmärkt manövrerbarhet.
