

## EARTHMAX SR 49 M - Tekniska specifikationer

### Description

EARTHMAX SR 49 M är ett radialdäck helt i stål med ett speciellt, oriktat mönster designat för gruvlastmaskiner, dumpers med lågprofil, hjullastare och bandschaktare som körs under krävande, steniga förhållanden, framför allt i underjordisk gruvdrift. EARTHMAX SR 49 M är idealiskt för tuff drift som kräver enastående dragförmåga och stabilitet. Det djupa mönstret hos L-4 och den specialkomponerade UMS-gummiblandningen för underjordisk gruvdrift ger längre hållbarhet samt utmärkt motståndskraft mot revor och punkteringar orsakade av sten.
