Description

F 240 är ett skogsdäck för avverkningsarbeten. Slitbanemönstret ger goda styregenskaper och utmärkt dragkraft, och har utomordentliga självrensande egenskaper. Den överlägsna gummiblandningen i slitbanan ger ett utomordentligt skydd mot skärskador och slitage för att ge däcket en längre livslängd. Den stora kontaktytan ger F 240 bättre stabilitet.
