

SM 54 M L4S - Data Sheet

Description

SM 54 M (L-4S) is a modified version of the SM 54 pattern. The flatter tread profile results in a large contact area ensuring a longer tire life-cycle. This tire has been specially designed for empty container handlers and reach stackers in intermodal/logistics applications. SM 54 M features high stability in lift mode as well as a deep and smooth tread design, providing excellent cut resistance.
