

MAGLIFT PREMIUM - Technical Specifications

Description

MAGLIFT PREMIUM is a solid tire specially designed for heavy forklift operations in port, mining or scrap yard applications. The extra deep tread (25% more compared to the standard version) with its aggressive and robust pattern provides outstanding front and lateral traction in addition to excellent steering control. The unique tread compound ensures high cut and chip resistance resulting in an extended tire life-cycle. Additional features are low rolling resistance and a smooth run.
