

MULTIMAX MP 525 - Data Sheet

Description

MULTIMAX MP 525 is an All-Steel multi-purpose radial tire designed for universal vehicle, telehandlers, compact loaders, and graders in agro-industrial applications. The tire has been specifically developed to carry heavy loads at higher speeds both on and off the road. Indeed, the large non-directional tread design provides exceptional traction on any surface in addition to excellent self-cleaning properties. The strong sidewall ensures exceptional lateral stability in lift mode, making it the ideal choice for agricultural and material handling operations. MULTIMAX MP 525 is made of a unique, cut- and-chip-resistant tread compound that stands for a longer tire service life thanks to its extraordinary resistance against any kinds of cuts and punctures.
